Brad Coventry - Brad's happy "Oh Yeah" can be heard throughout the halls of IDCI. At present his activities include trying to stay awake in English and playing for the Thamesford Trojans. He hopes to become a farmer in the future.

Linda Cording - This professional Wheelbarrow pusher plans to become a stunt rider in the future. Trying to overcome boring math classes makes up for the trouble she causes at parties. Next year, who knows! Good luck, Chuck!

Shelley Dowling - Running into locked washroom doors seems to bother Jelly Bean. Next year, she plans to attend Fanshawe.

4G Bole

Gord Armstrong - Gord spends too much time with Karen to fill out a Volt questionnaire. Good luck, anyway Gordie!

Joan Baskette - J.B.'s favourite pastime is being with Ed and cruising in the Big Mizer. Her plans include getting married and working. Best Wishes for the future.

Pat Baskette - Pat spends most of his time going out and is bothered by fellow members of IDCI. Electrical work awaits Pat next year.

Carol Beemer - Carol is annoyed by people who smooch outside homeforms but she overcomes this by saying "Have you got a problem?" She plans to attend Nursing College next year.

Dennis Benjamin - He will either enter the Swiss Navy Academy or run for president of South East Borneo.

Brian Branton - The only thing that we could make out from Brian's questionnaire was that his nickname is 'Big Bird' Good luck in whatever it was you wrote on your questionnaire.

Barton Carey - Barton seems to be bothered by Volt questionnaires but has also expressed his dislike for math. Good luck in trying to avoid math next year as you study to become an electrician.

Tom Cole - "Tom Cat" dislikes Chrysler products and Japanese cars. His activities include drinking, Motorcycling, and modifying Hondas. His ambition is to become a Class A grease monkey, Good luck.

Ruth Dale - "Foot" as we all know her, is trying to solve one of life's mysteries - Why are the weekends so short? (let us all know when you find out) Her activities include being in Bole House executive and skiing. In the future she hopes to attend college or join the working force.

Brian Durham - One of the numerous homework haters, "Pitchfork" enjoys hockey, fastball and eucher on the bus. He hopes to become a farmer next year.

Gail McTaggart - While waiting for her day of great escape from IDCI, Gail enjoys causing trouble with M.F. and I.C. and waiting for future summers. In all probability, Gail will be destined to a life of hard labour, at Motor Mower.

4H Briden

Denise Eden - Denise can be heard saying "crumbs" when people say they have a problem and do nothing to overcome it. Next year, we'll find her in an office saving her money to buy a novelty store.

Dave Elson - Dave has one ambition in this world and that is to create a weekend just as long as the school week. His activities include trying to make the best of his short weekend and looking for parties. Good luck in the working world next year, Dave.

Susy Folkema - Smiley's main ambition in life is to avoid fame and fortune.

Linda Hodgson - Linda, who's always on time, is bothered by teachers who always let their classes out late. Her activities include Kevin and coming to school half days. In the future, Linda hopes to enjoy a happy life with Kevin. Good luck to both of you.

Jane Hogg - To design a car that is shatter-proof is "Hogger's" ambition for the future. At the present, she is kept busy picking up pieces of smashed cars. Her future years will be spent in Real Estate, although we think the car insurance business would be better. Good luck, anyway.

Rick Holland - "Bob" didn't give us very much info but we did find out that he enjoys playing hockey and hopes to work or attend college next year. Good luck, Rick.

Dennis Hutson - "Musky", an active member of the student body, can always be found on the stage attempting to make the rest of us laugh. Unfortunately, life isn't as pleasant at IDCI as he would like it to be, as Dennis finds out he can't get along with everyone. In the future, Dennis plans to become a chef.

Bonnie Hutton - "Squirt", who is bothered by tall people with ingrown toenails, can always be found at hockey games watching her favourite player. After her final struggle at IDCI, Bonnie plans to work in order to be able to buy a 'second shoe.'

Cindy Innes - Trying to overcome a day when she has gym first thing in the morning is Cindy's ambition in life. Her activities include roller skating, sewing and being one of the Colonel's girls. She hopes to become a hairdresser in the future.

Mary Janssen - Trying to stay awake during USSR periods in the morning take up quite a bit of Mary's time. She enjoys roller skating, volleyball and other extra curricular activities. Good luck in the future, Mary!

Bill Potters - Willy decided not to grace our honourable Volt with his great penmanship.

4J

Briden

Debbie Eidt - Debbie's famous "Hit the road, you jerk!" can be heard through the halls of IDC1 while she tries to get ahead of the slow walkers. Debbie can be found roller skating, skiing, and spending time with T.S. Next year, she hopes to attend college.

Mark Ellah - If the day was a few minutes longer, Mark would have been able to write out and hand in a Volt Questionnaire. But then, who believes in miracles? Good luck in the future.

Karen Fox - Monday morning bother Foxy, but even worse, are those last few minutes on a Friday afternoon. Next year, she hopes to attend some college. Good luck!

Brenda Groom - Exams, exams, and exams are Brenda's pet peeves. Obviously, she plans to avoid exams in the future and also hopes to be employed as a secretary.

Mark Hammond - He is too busy driving around to fill in Volt questionnaires.

Dave Harrison - Some people are destined for greatness - then there's Dave.

Sue Hoffman - "None" has decided that she doesn't like Monday mornings nor does she enjoy surprise chemistry tests. Her activities include Chris, working and last but not least, she enjoys school. Next year, we will find her at Fanshawe college.

Alice Hogg - Our professional bag-pipe player can be found riding around in a green Firebird. Her activities include green Firebird's and going to baseball games. Next year, who knows? Good luck.

Gail Hoover - Gail is active in the Volt and in the Arts and Crafts Club. Teachers who give surprise tests on Monday mornings bother Gail. She hopes to become a dental assistant sometime in the future. Hopefully, they'll have some Spanish clients. "Hola, Adios".

Theresa Hossack - A certain friend who phones early in the morning really bothers "Trueie Turoo". She enjoys watching Hockey games, working and talking. Theresa hopes to become an airline stewardess.

Terry Ingram - Terry is bothered by people who call her "Shorty", when really we all know she is not. She spends most of her time sitting on a bench gossiping with B.S. about how to make first string. In the future, "Shorty" would like to find a way of looking down on the world.

Clint Fortner - Stretch spends all his time arguing with rubber bands about his philosophy of life.

Wossa "AA"

A precedent was set last fall when IDCI's senior Blue Bomber volleyball team defied the odds to win the "AA" WOSSA championship. London Saunders, with victories the two previous years, had been expected to repeat yet Ingersoll defeated them in straight games, 15 - 3, 15 - 8, then going on to defeat Listowel 15 - 8, 15 - 10 in the championship finals.

Later, at the all-Ontario finals, Ingersoll tied for sixth out of eighteen teams that competed, thus giving IDCI the honour of having the sixth best team in Ontario of the 500 that represented their schools. Congratulations should go to the "Bristle Head" (Mr. Gillis) for taking the team to the position that they now hold.

School Life

Student's Council

President's Message

As far as I am concerned, IDCI is number one, and will always be number one, academically and physically, to me and the students and staff of '76 - '77.

Quickly taking a nostalgic trip into the past, we see that Canada hosted the '76 Olympics at Montreal, but for the majority of us the national or international scene takes a second place to the events of IDCI.

The revival of initiation day brought back vivid memories. Besides Initiation day, IDCI survived a minor catastrophe (scabbies!), The Student's Council roasted their staff advisor and the Sr. Boys won a WOSSA Volleyball championship enabling them to participate in the Ontario finals.

The Student's Council, with determination and dedication, prepared a budget and organized several other activities. Presently, while writing this message, the Student's Council is planning for their annual chocolate bar campaign and is in the process of organizing a future Student Retreat.

Although I have not mentioned all the achievements of IDCI or the responsibilities of the Student's Council I would like to emphasize that all of us in another ten years can leaf through the '76 - '77 Volt and proudly say "I was part of it".

Oklahoma

'76

The school production put on each year becomes a treasured memory in the minds of those who took part. You not only meet new students and teachers, but get to know them well, learn to co-operate with others, experience the joys of lunch bag let-downs on the weekends, and 1001 other great things! There is a lot of hard work involved in getting ready for a production and there are many aspects in which you can get involved - you don't have to be able to act or sing. There are endless jobs in orchestra, makeup, props, set production, stage crew, etc., If you want to take part, don't let anyone stop you; you'll never know until you try.

And on the last night, when the final curtain goes down and you think back to all the times you swore, threatened to quit, cried or sweated through a rehearsal, you'll be glad you did it. The feeling inside is terrific and you'll never feel it till you get involved. Do it!

This, our most active year yet, saw enthusiastic groups exploring the Bruce Trail at Terra Cotta, Cabot Head, Dundas and Kelso. EUTHANASIA

. . . for the betterment of the nation,
the stability of society,
the progression of mankind . . .

She flexed her
Swollen, arthritic hands,
Then looked out
At the towering maple
In the yard,
A young sapling
When she was married
Beneath it.
For a split second
A curtain
Was lifted
While she thought
Just for a moment
Of her age,
Of the impending horror.
She shivered,
Bit her lip grimly,
And shook her head,
Trying to force the thought
From her mind - -
Yet a shadow
Of diffidence
Had entered
And she closed her eyes,
Bowed her head
In chilled melancholy
And despair,
Knowing,
Accepting.
The intangible
Ghostly fear
That had lurked,
Unnamed,
In the recesses
Of her mind,
Had now boldly
Stepped out
And was acknowledged.
No turning back.

I Believe in Ghosts

I believe in ghosts,
but then, I believe in
what many people think are
only fantasies.

I believe in
elves,
witches,
demons,
and many other things,
not because they might be
real,
but because I want to
believe.

I believe in God,
supreme and humble,
everywhere and nowhere;
not the one with an
Assyrian beard,
or the revengeful
Jehovah,
or the God that people
wind-up
every Sunday.

So you see
I believe in God,
but then, I believe
in ghosts
too.

Change

This power
 Of change—
 So deep,
 Abysmal
 In its force.
 Shattering,
 Heartbreaking,
 It tugs and pulls
 Painfully
 In all directions.
 Yet without change
 There is no growth—
 Just stagnancy
 And bland,
 Scheduled emptiness.

Blindness is Tamed

The lid came down
All light was gone
So colours went unknown,

The height of land
Or depth of sea
It chilled me to the bone,

For all had gone
Beyond my sense
To make me all alone.

But from the fear
That closed me in
There came a simple tone,

Suddenly,
My body lived
A life it hadn't known,

Each sense of mine
Had felt beyond
The darkness of this zone.

Oh, wretched lid
That stole my light,
My colour took from me,

You have failed
To close my eyes
My powers make me see.

Saying Goodbye

By the classroom door the couples stand,
Arm in arm and hand in hand.
Saying farewell, a dramatic good-bye,
As if one of them was about to die.

They stare into each other's eyes
Letting out those passionate sighs..
"Good-bye my love," and with one last kiss
They part and remember their infinite bliss.

Forty minutes have past.
They're together once more
Saying good-bye
At a different door.

Exposure

There was that moment
When there seemed to be
A chance - so I took it;
Scooped it up fast
And held it tight
Before I changed my mind.
I let it out, that soul
But it flung wildly back
At iron bars - reeling madly about
And screaming silently.
I freed it
But I don't think
He cared
Anyway . . .

HOUSE SYSTEM CARRIES ON

The I.D.C.I. House System is completing its second year of operation in 1977. The narrow victory by Briden House, over runner-up Wilson House, last year, has provided an incentive to all Houses to work hard to capture top honours. To do so, students must provide, for their houses, maximum participation plus a concentrated effort to win in competitive events.

House participation points are gained through student involvement in the various clubs and activities organized throughout the school year. Competition points are earned through intramural events and those activities that promote interhouse competition. In addition, points can be earned through the special events held throughout the year. This year those events have included: orientation week, bulletin board competition, 50's day, nutrition week, games' day, and sports' day.

At the end of each year, separate recognition is given to the house achieving the most points under participation and competition categories. The house with the largest accumulation of points is named House Champion.

THE MAN? IN CHICO

"I can't take it any longer."

How can these be the words of any man? What can be so wrong, so terrible, to cause a man in his prime to write such a note

in his prime, to write such a note?
because how many boys have
wished they were men,
because how many old men have
wished they were twenty-two,

who's a success, to contemplate death?
because how man "failures" have
wished for an L.A. penthouse,
because how many "successes"
have wished for the freedom
of youth to enjoy it,

who's a star, to take his own life?
because how many men have wished
that they could come out of their
dressing room and be mobbed by fans,

with a son, to leave a life behind willingly?
because how many men have wished for sons,
because how many men have wished for only one,

and wife, to seek relief in death?
because how many men have wished for
such a glamorous bride,
because how many men have wished for
a divorce.

What kind of world is it that a young, successful man who's a star with
a wife and child must seek death as the sole and final answer?

Grant Fraser

THE VOICE

The street is quiet, deserted.
Sharply, a tin can bites into the pavement.
Like the peal of a crying bell, its wail
Resounds against the walls of an empty city;
The backdrop of darkness slowly engulfs
Its voice, until only silence hangs
In the air. Yet an echo lingers—
A bittersweet reminder of loneliness and
Aloneness.

Memories

Yesterday's Past

Little bits and pieces
Of laughter mixed with tears
Paragraphs and Pages
Written throughout the years.

The carefree days of childhood
The growing pains of youth
A few illusions scattered
In that endless search for truth.

The friendships to be treasured
Mistakes that we'll regret
The ending of a love affair
We never could forget

But don't erase the sadness
Or edit out the tears
We can't undo the wrongs we've done
Experience from past years.

Michele Freemantle

The Infielder

The stands are soaked.
Wet grass dampens the bottom of my jeans
And makes them stick to my ankles.
I wander around the muddy diamond,
Listening to my squeaky thongs,
Stopping to read the graffiti
Carved on the back of the scoreboard,
I see that Ricky loves Marianne,
But Marianne loves someone else.
Oh, well, the sun will come out tomorrow,
Dry up the pitcher's mound,
And Ricky will get over it.

Date: 4/38008/798Z

Position: STAR SYSTEM SOL, PLANET EARTH

Time: 4.09X/05

Report: Entered a "Rock Concert" at 3.188/05
This event is held in a large hall. Upon entering I was beset by a large group of young terrans. They admired my landingsuit, and offered me a foul-smelling cylinder which emitted a gaseous cloud (MEMO: Check origin of substance).

A large elevated area was covered by various open boxes, circular objects, smaller with elongated ends, and upright small poles. (possible weapons)

When some older terrans appeared on this surface, the younger ones started screaming and hitting their hands together. Then a yellow-haired terran grasped the top of one of the poles and commenced to vocalize. At this point the screaming increased. At once a shattering sound left the open boxes and assaulted my auditory openings. The terrans were raised to a frenzy by the yellow-haired terran. This continued for the length of the "CONCERT". They seemed totally controlled by this terran. It is my opinion that he is ruler of earth, and that a "CONCERT" is a council of war.

I recommend that no attempts to make further contact with the terrans be made. They seem to be too war-like.

Conclusion: Terrans are beyond our assistance, little sign of civilization.

John Hunsley.
