TOWNS AND VILLAGES.

COUNTY OF OXFORD.

TOWN OF WOODSTOCK.

The County Town and judicial seat of the County of Oxford is advantageously and pleasantly situated in a central location, in the south-west corner of the Township of Blandford, bordering on the river Thames and Cedar creek, and nearly evenly divided by the line of the Great Western Railway, of which it is an important station.

It is distant from Hamilton 48 miles, from Paris 19 miles, and from London 29 miles.

In the various branches of mechanical industry, Woodstock is well represented.

The Woodstock Iron Works, established in 1842, and carried on by the Messrs. Oswalds & Paterson, are situated on Dundas street, opposite the Old Gore Bank.

The buildings are of brick, two stories in height, 250 × 150. The power employed is a 12 horse-power engine, and the number of hands constantly engaged is about twenty. In this building are manufactured stoves, threshing machines, cultivators, agricultural implements, mill gearing, tin and sheet iron ware.

The Flouring and Grist Mill, carried on by Andrew Eaton, is situated near the G. W. R. track. It was built in 1857 (of brick) by James Watson at a cost of \$40,000. It is five stories in height, eighty feet in length, and forty in breadth. The machinery is propelled by a 60 horse-power engine, and there are five run of stones which are capable of grinding 1,000 barrels of flour per week.

The Great Western Mills, carried on by John Forrest, were built in 1865. They are of wood and stone, three stories in height, and measure 60 × 75 feet. The motion power is furnished by a 45 horse-power engine, and employment is given to nine hands. The capacity of the mill is 80 barrels per day, besides custom work to the amount of 100 barrels per diem.

The Carriage Factory of Messrs. Gardner & Rose was built in 1857. It consists of a Show Room (24 × 42) two stories in height, built of

In and for the County of Oxford,

DUNDAS ST., WOODSTOCK:

frame. Blacksmith's shop (55 × 64) also of frame, and paint shop (26 × 42). There are six forges in use, and employment is given to fourteen hands. Carriages, waggons, &c., are here manufactured.

The Woodstock Carriage Factory, owned and carried on by Wm. Scarff, is a magnificent establishment, occupying a block 198 feet square.

It consists of the following buildings:—

Workshops:—Blacksmith's shop, paint shop, turning shop, and woodshed, two stories in height (brick), and 84 × 30 feet in dimensions.

Show Rooms, two stories in height, built of frame, and measuring 60 × 30 feet.

Four forges are in constant operation, and employment is given to 16 men.

Here are manufactured carriages, buggies, sleighs, cutters, democrats, &c., &c., of the best style and workmanship.

The Woodstock Melodeon and Organ Factory, carried on by the Messrs. Miller & Karn, is a two storey frame building. Nine hands are employed, and melodeons, red and pipe organs of all descriptions, are manufactured.

Last year, Mr. Alexander McKay established the Beehive Cabinet Factory. It is a frame building, three stories in height, where a 16 horse-power engine is used, and twenty hands find constant employment.

Mr. McKay manufactures wash-boards, rolling-pins, ball clubs, cabinet and chair turnings of all descriptions.

Mr. James Hay's Cabinet Factory is of frame, with a main building two stories in height, and measuring 86 × 36 feet, and a saw-mill (frame) 60 × 30.

A 30 horse-power engine furnishes the motive power. Steady employment is given to fifty men, and cabinet ware of all descriptions, including mouldings, rolling-pins, clothes-pins, broom handles, &c., are here manufactured. Ware-rooms at Equity House.

The Woodstock Barrel Factory, owned and carried on by Thos. J. Clarke, consists of three frame buildings, occupying an area of two acres. Steam to the extent of 20 horse-power is employed, and 30 hands are engaged in the manufacture of barrels and cooper's work in all its branches.

The Cedar Creek Oil Works of the Messrs. Clarke & Francis were established in 1861.

The buildings, which are situated in the west part of Woodstock, are built of brick and frame, and occupy an area of two acres.

A 20 horse-power engine is employed, and seven hands are engaged in the refining of oil of the best quality.

The large tannery of W. F. Wilson is situated in the east end of the town, near the G. W. R. track. It was erected in 1841, and consists of a two story frame building, measuring 90 × 44 feet. A 10 horse-power engine is employed, and twelve hands are engaged in manufacturing harness, upper and sole leather.

WILSON STREET, NEAR G.W.R. TRACK.

WOODSTOCK EAST, ONT.

His buildings, erected in 1867, are of frame, two stories in height. Four men are employed in the manufacture of cigars and fine tobacco.

The Planing Mills of F. B. Scofield are situated on Wilson Street, south of the G. W. R. track. They were built in 1855, and consist of a main building (frame) two stories in height, and 34×60 feet in measurement, a wing (brick and frame) 18×60 feet, and an addition to the rear of the building, 60×20 feet. Steam, to the extent of 18 horsepower, is employed, and 15 men are engaged in manufacturing sash doors, window-blinds, mouldings, wooden bowls, cheese-boxes, and every description of turning.

The Canadian Literary Institute is located at the east end of the town, on Wilson Street, south of G. W. R. track, and has a very plain site on a rising ground, commanding splendid natural views. It is a noble structure (reflecting great credit on its architect, David White), of three wings or compartments, surmounted by a handsome dome, having four large entrance doors, spacious halls and schoolrooms, with comfortable and well-ventilated dormitories for the resident pupils, together with ample play-grounds, and all the "means and appliances to boot," for their healthy recreation and amusement. With the great advantages it possesses, coupled with the efficiency of its staff of professors and teachers, this educational establishment is rendered one of the best scholastic institutions in the western part of the Province. The present structure has been but recently built, and on the site of the original one, which was erected at a cost of about \$30,000, but which was destroyed by a disastrous fire in January, 1861. An extensive addition has since been made for the accommodation of boarders, the main building being quite inadequate to the demand on it for accommodation of boarders. The Institute is under the control of the Regular Baptist denomination. It has three different departments, viz.: Primary, Higher and Theological, the average attendance on which consists of fully 100 students. The Primary School is attended by pupils over eleven years of age, who study the various branches of an ordinary English education. In the Higher department, the students are prepared for the study of Theology, or for matriculation in arts, law or medicine. The fees for attendance in these departments vary from \$20 to \$28 per year. In the Theological department, attended by about 30 students, the tuition is *gratis*.

GRAMMAR SCHOOL.—The Grammar School was established in 1843. The present building was erected in 1848—Messrs. White & Dixon contractors—at a cost of about two thousand four hundred dollars, and is situated on the corner of Hunter and Graham streets. The school has been under the charge of Mr. George Strauchon, the present efficient and highly-esteemed gentleman, over twenty years. A thorough classical, mathematical, and higher English education can be acquired here. The number of pupils attending varies from thirty-five to fifty. Mr. John Byrne, assistant teacher.

PLATTSVILLE,

A thriving post village in the township of Blenheim, situated on lots 18 and 19, of the 12th and 13th concessions, within four miles and a half of the G. T. R., and sixteen miles distant from Woodstock, the county town, and seven miles and a half from Drumbo. Smith's creek flows through the village, affording excellent water power for mill purposes. Plattsville was laid out by Samuel Platt, from whom it has taken its name, and who erected the first mill in the village, about the year 1851, containing four run of stones. Mails are received daily.

The village now contains several stores, and one steam woollen factory. There are several manufacturing establishments, among which may be mentioned the Plattsville flouring and grist mill, owned by Mr. E. Platt. The mill is 100 by 40 feet, 3 stories high, has 3 run of stones, and has a capacity of grinding 80 barrels daily. Mr. Amos Snyder, manufacturer of agricultural implements and flax dresser, employs about 20 hands, and an engine of 20 horse-power. The buildings are brick, and extensive. Mr. Samuel Levan manufactures pumps, churns, tubs, sash and doors, and employs 4 hands. Mr. Thomas Seaman employs 8 hands in the manufacture of carriages, waggons, sleighs, cutters, &c. Plattsville contains four church organizations, three of whom have churches; also a good school. Population about 700.

PRINCETON,

A flourishing post village, and station of the G.W.R., situated principally in the township of Blenheim, County of Oxford, a portion being in the township of Burford, County of Brant, 12 miles from Woodstock, the County Town, 7 from Paris, and 36 from Hamilton. It enjoys a good local trade, being in the midst of a rich agricultural district, and the chief outlet for the large amount of lumber and shingles manufactured in this section of the county.

There are five churches, viz:—the Episcopalian (St. Paul's Church), a brick building, erected in 1867, having capacity to seat 250 persons—Rev. Henry Bartlett, incumbent. The Canada Presbyterian (not yet completed) will be a commodious brick edifice, and is to cost about \$4,000—Rev. H. McQuarrie, minister. The Wesleyan Methodist Church is a frame building, and cost \$1,300. It will seat about 300—Rev. A. Campbell, minister. The Episcopal Methodist Church is a frame building, erected in 1857, cost \$1,200, and will seat 300—Rev. J. Yokom, pastor. The Lutheran Church originally belonged to the Episcopals, but was purchased by the present congregation in 1867—Rev. Mr. Euler.

The *Princeton Review*, a very handsome 36 column weekly newspaper, having a large circulation in Brant and Oxford, was established here in 1869 by its enterprising editors and proprietors, Messrs. Gissing & Clark, who have, in connection with it, a good book and job printing office. It is published on Fridays.

Among the public buildings may be noticed a large town hall used for municipal purposes. There are in the village and its immediate vicinity two large shingle factories and turning mills, two saw mills and two tanneries. The mechanical trades consist of two waggon and carriage shops, three blacksmith's shops, several shoe shops, one cabinet factory, two tailors, one tinsmith, and a harness maker.

Carpenters will find the best Tools at Short's.

Messrs. Lloyd & Rutherford's carriage factory was established in 1855, and consists of a frame building, 33 × 24 feet, two stories high, and a rough cast one story building, 66 × 20 feet. Six hands are employed.

Messrs. Kelly & Sons are doing an excellent business in cigar manufacturing, and employ about six hands.

TILLSONBURG,

(DEREHAM P. O.)

This village is situated on the Ingersoll and Port Burwell gravel road, on lots 3, 4 and 5, and 12th concession, township of Dereham, distant 25 miles from Woodstock, the county town, and 15 miles from Ingersoll; 5 miles from Eden, 8 miles from Straffordville, 14 miles from Vienna, and 17 miles from Port Burwell, on Lake Erie, 4 miles from Courtland, 11 miles from Langton, 17 miles from Walsingham Centre (Pleasant Hill P.O.), and 24 miles from Port Rowan, on Long Point Bay. The village was laid out by Jesse P. Ball, Esq., in the years 1828-34 (two surveys having been made). The village made very little progress until about the year 1851, at which time the excellent hydraulic power afforded by the Otter creek, which flows through the village, was taken advantage of—sawmills were erected, and the lumber trade of this section increased materially. Lumber and timber commenced to be rafted to Port Burwell, affording cheap transportation to the lake. Petroleum has been discovered here, although not in paying quantities, so that out of ten wells not one is in operation. Several experienced operators, however, still declare their confidence that extensive deposits will yet be

found in the neighborhood. When the oil business ceased, a well was drilled for salt. It is now 1447 feet deep, and the brine from the bottom, drawn up in the open sand pump through a column of fresh water 1400 feet deep, shows a strength of 50 per cent. In the village, there are five general stores, seven groceries, four boot and shoe shops, two harness shops, two tin shops, two foundry and machine shops, two tailor shops, one waggon shop, four blacksmith and horse-shoeing shops, three cabinet shops, a carding mill and woollen factory about a mile south of the village, three grist mills, one very large saw mill, a sash, door and blind factory and planing mill, three hotels, three milliners, one photographic artist, four physicians; a weekly newspaper, the *Observer*, published by W. S. Law, who has in connection one of the finest book and stationery stores in the County; a good common school, with an average attendance of 200 pupils, in which there are three teachers; also a private school.

Daily stages to Ingersoll, Port Burwell, Vienna, Straffordville, Eden, Acacia, Mount Elgin and Salford, and tri-weekly stages to Courtland, South Middleton, Langton, Walsingham Centre and Port Rowan. Mails received at 8 a.m. and 4 p.m. One temperance organization (Sons); one Masonic (King Hiram) Lodge; and the Dereham Agricultural Society meets here. The division court for Dereham township is held at Mount Elgin, about 7½ miles north of Tillsonburg, on the Ingersoll and Port Burwell gravel road—Charles Hawkins, Esq., of Tillsonburg, is clerk. There are four churches—Wesleyan Methodist, New Connexion Methodist, Presbyterian and Church of England.

Population about 1000. There is an efficient fire company; cost of engine about \$1000; and there is a good engine house. Tillsonburg was erected a police village in 1866.

Tillsonburg contains many important manufactures, of which the numerous and extensive establishments of E. D. Tillson, Esq., justly claim the foremost rank. The flour and grist mill is a frame building 70 × 34, 3 stories, containing 3 run of stone—average custom work about 120 bushels daily. The sawmill is 85 × 70 feet, contains two large circular and one upright saw, edgers, besides lath machines and two shingle mills. At this mill, about 4½ millions of feet of lumber are sawn annually. The sash, door and blind factory is 60 × 65 feet, and two stories high. The machinery in all of these mills is propelled by water power, which is here afforded by the Otter, and is abundant.

Mr. David Kelso employs a good many hands in cabinet-making. The shop is frame, 63 × 23 feet, and two stories high.

Mr. S. H. Palmer, in the same line, employs about 3 hands—cabinet-making, upholstering and undertaking.

Mr. R. H. Burke, founder and manufacturer of agricultural implements, employs about 12 hands, and an engine of 8 horse power.

EMBRO.

The village of Embro, which became a separate municipality by Act of Parliament about the year 1858, is pleasantly situated on a branch of the River Thames, in the Township of West Zorra, comprising the east halves of Lots Number Eleven and Twelve, in the Fourth Concession, and the west halves of Lots Eleven and Twelve, in the Fifth Concession. It lies in a north-westerly direction from Woodstock, at a distance of ten miles, and is six miles from Beachville, on the line of the Great Western Railway. The site of the village could not be more desirable, having unsurpassed natural hydraulic power for mill and manufacturing purposes; and being on a rising eminence, and also surrounded with a fertile and beautiful section of country, and were it not for the lack of proper means of transportation, the village by this time would have unquestionably grown into a town. In the village, there are some handsome and substantial stone and brick buildings, among which might be noticed the Canada Presbyterian Church, erected of brick in the year 1861, at a cost of about ten thousand dollars; also the Albion Hotel, built of brick, three stories in height; in connection with which is a commodious hall, in which the courts and all public meetings are held. The North Oxford and West Zorra Gravel Road passes through the village. Its general business consists of two newspapers, the *Planet* and *Review*—the former published by Dr. Adams, and the latter by Mr. Alex. Hay; several mercantile establishments and workshops in the various branches of trade; a flax mill, three excellent flouring and grist mills, two oatmeal mills, an ashery, and a carding mill and cloth factory, owned by Mr. John McDonald; two physicians and a law office, a military organization, United Brethern, Young Men's Christian Association, and an Evangelistic Association; three churches, viz.:—Canada Presbyterian, Baptist and Episcopal Methodist, and two schools. The Courts of the Third Division are held here, of which D. Matheson, Esq., J.P., is clerk. The municipal administration of the village is carried on by a Council, presided over by a Reeve, who is at present D. Matheson, Esq. The West Zorra Agricultural Society, which was organized in the year 1853, hold their meetings in the Town Hall.

BEACHVILLE,

A post village and station of the G.W.R., situated on the banks of the Thames, four miles west of Woodstock, and about the same distance from Ingersoll. Previous to the construction of the railway, considerable business was done here, and for a long time it was the post-office station for a large section of country to the north, east and south, before a post-office was established in Woodstock or Embro. Beachville and its immediate vicinity was among the first portions of the county settled, in consequence of which the farms are now in a high state of cultivation. There is ample water power in its vicinity for mill and factory purposes. The London and Hamilton macadamized and gravel road passes through the village; also the North Oxford and West Zorra gravel road. It has daily mails, and contains five church organizations, viz:—Roman Catholic, Presbyterian, Episcopal, Wesleyan Methodist and Baptist; two schools, one foundry and machine shop, owned and carried on by Mr. R. Whitelaw, in which are manufactured agricultural implements, mill gearing, steam engines, sawing machines, &c., &c.; one grist and flouring mill, two sawmills, of which that of Mr. J. Gray was established in 1863. It is 60 × 30 feet, 2 stories high. Six hands and an engine of 25 horse power are employed. Mr. James Nott turns out about 500 bushels per week of the very best lime from his kiln. Mr. N. Climenhegg manufactures rakes, wash boards, turned ware of all kinds, mop sticks, &c. There are also two shingle and turning factories, and two tanneries, three general stores, three groceries, three blacksmith shops, one waggon shop, three shoe shops, and three hotels. Population about 700.

It is connected with Ingersoll and London by the Ingersoll and Thamesford Gravel Road, and also with St. Mary's by the road leading from it to St. Mary's. There is excellent water power in its immediate vicinity for mill and factory purposes, with good mill sites. It contains several stores and manufacturing establishments, of which Messrs. Hull & Kennedy's carriage factory deserves especial mention. They employ about 15 hands, and turn out everything in the line to a large extent. The premises consist of two buildings, one of brick 50 x 30 feet, two stories high, and the other a frame 26 x 32 feet, two stories high.

Mr. H. Hull employs six hands, and an engine of 15 horse-power, in the manufacture of sowing machines, horse rakes, land rollers, spinning wheels and reels, bench screws, wood turning of every description, and iron turning is also done by Mr. Hull. The factory is a frame building 86 x 24 feet, two stories high, and was started in 1856.

Mr. John Johns established in 1842 the Thamesford flour and grist mills—water power—buildings, frame on stone basement, 35 x 45, four stories high, and contains three run of stone. Mr. Johns also saws about 750,000 feet of lumber annually.

There are three churches, viz.:—Church of England, Presbyterian and Episcopal Methodist, and a good common school, well attended. The nearest railway depot is Ingersoll. Mails tri-weekly. Population about 500.

INNERKIP,

A post village in the Township of East Zorra, and situated on the western bank of the river Thames, and eastern boundary line of the township. The village contains two stores, and an oatmeal mill, carried on by J. & G. Ronald. This mill was built in 1860 (of frame), and measures 30 x 28 feet. Both steam and water power is here employed. The Messrs. Ronalds are also the owners of a flour and grist mill, built in 1864, of frame, four stories in height, and measuring 40 x 80 feet. Three hands are employed, and 50 barrels of flour can be dressed and packed daily, besides attention being given to custom work. In 1860, Mr. John Callan established several lime kilns in the neighborhood of this village, which are constructed on an entirely new plan, whereby a greater saving of fuel is effected, with a larger return of burnt lime, than heretofore. Two hundred bushels of lime can be burned every 24 hours, and 100 bushels drawn off every 12 hours. Each hundred bushels of lime takes one cord of wood; altogether about 400 cords are burnt during the season. The waggon and carriage shop, owned by Mr. A. L. Brown, was erected in 1852 of frame. The show room measures 24 x 30, 2 stories in height, and a blacksmith shop 45 x 30, one story in height. Three hands are employed, and carriages, waggons, sleighs, cutters are here manufactured. There are three churches, the Church of England, Canada Presbyterian Church and East Zorra Baptist Church, on 17th Concession.

INGERSOLL.

Ingersoll, which was constituted a Town by Act of Parliament in the year 1864, is situated on the River Thames, (being divided by it,) partly in the township of North Oxford, and partly in the township of West Oxford. The site of the town is advantageous and pleasant, being on a rising eminence, and in the midst of a fine agricultural section of country. It is also the principal shipping station for the lumber manufactured in the southern portion of the county. This, together with the many enterprizes, within itself, has made Ingersoll one of the most important stations on the line of the Great Western Railway; since the construction of which it has made rapid progress in population, wealth and importance. It is distant from Woodstock 10 miles, from Hamilton 60 miles, from London 20 miles, from Windsor 129 miles. The town contains an express office, a telegraph office, a public library of 1000 volumes and several other public institutions which will be found under appropriate headings.

In manufactures the town is well represented in almost every department; the following are among the most important.

Founders and Agricultural Implements.—Noxon Bro.'s are extensively engaged in the manufacture of Agricultural Implements, particularly reapers and mowers and dairy utensils of all kinds. They are established since 1856, and employ about 100 hands.

Eastwood, Marr & Co., are engaged in the same business—threshing machines included. These are the oldest works of the kind in Oxford; their buildings are extensive, built of brick and frame. A 24 horse power engine is used, and eighty men employed.

Carriages.—This branch is fully represented, among which we notice George Bailey, King street east, established in 1854. He employs 18 to 20 hands in manufacturing every article in his line of the best material. He is also sole manufacturer of the "Excelsior Seeder and Cultivator," patented 1st May, 1869.

Planing and Sawing Mills.—A. Oliver & Co. carry on a large and extensive business. They employ 50 to 60 hands in a large two story frame building, using two engines to propel their machinery. They manufacture lumber, doors, sash and blinds, cheese and cigar boxes, wheelbarrows, &c., &c., besides doing planing and dressing.

Christopher Bros. employ 40 hands, with an engine of 50 horse power to propel their machinery. Their buildings are frame, 30 × 160, 2 stories.

Plough Factory.—George McSherry employs six hands in the manufacture of iron and wooden ploughs of the best description. His buildings are frame.

Cabinetmakers.—Morrey & Rothwell use a 15 horse power engine, and employ 20 hands in the manufacture of cabinet work and house furniture of all kinds. Their buildings are frame, 100 × 30 feet, two stories high.

James McIntyre commenced business 1853. He employs 15 hands, and uses a 12 horse power engine. His buildings are 30 × 80, 3 stories.

E. Robinson & Co. employ 6 to 8 hands, and turn out everything in their line in the best style.

Erwin Caldwell is extensively engaged in the manufacture of chairs of a good quality.

Flour Mills.—James Smith's two mills afford ample accommodation to the public in flouring, gristing and oatmeal grinding. Both mills are propelled by water, and have each 3 run of stone.

The large flour and grist mills of Mr. Peter Carroll are built of frame, and have a never failing water power supplied by the Thames.

The North Star Oatmeal Mills of John Stuart, situate on Hall street, are frame, built in 1860, and are capable of grinding twelve to fourteen thousand barrels of oatmeal annually. They contain two run of stones propelled by water power. Ten hands are here employed.

The flour and grist mills of Thos. Harris & Bro. are on Queen street. They were built in 1850, of frame on stone basement. They are two stories in height, and measure 100 feet × 40 feet, and contain three run of stone. The capacity of the mill is 80 bbls. per day of flour ground and packed, in addition to custom work. Three hands are here employed.

Cauterville Tanneries.—The tannery of Thomas Brown is a large frame building, established in 1833. Mr. Brown manufactures sole, harness and upper leather, kip and calf skins.

Woollen Mills.—The Messrs. Waterhouse & Bradbury carry on an extensive business in this line at their mill situated on Queen street. The buildings are frame, four stories in height, and measure 90 × 28 feet. Water power is employed, and 14 hands are engaged in the manufacture of tweeds, flannels and custom work in general.

PUTNAMVILLE,

A village on Reynold's Creek, in the Township of Dorchester, County of Middlesex, five miles from Ingersoll and 16 from London, on the Ingersoll and London Gravel Road. Mails daily. Population 250. Robert Craig, postmaster.

Reynold's Creek furnishes excellent hydraulic power, which is taken advantage of by Nelson Wait in his flour and saw-mills. They were built in 1853 of frame, and are of the following dimensions:—grist-mill 40 × 50, 2 storys, with two run of stone. The saw-mill measures 40 × 60 feet. Six hands are employed in the two mills, and custom work in general done at the grist-mill. Mr. Wait cuts half a million feet of lumber annually in his saw-mill.
