## PREFACE.

---

In presenting to our patrons and the public our first issue of the Oxford County Directory, we beg to state that we have spared neither pains nor expense in collecting and arranging the information for the work, and trust that it will prove to be what we intended, and believe what we have succeeded in making it, viz., the best work of the kind ever published in the Province. Several new features have been introduced hitherto not found in publications of this kind, which will be found an important and valuable addition to the work. Absolute freedom from errors has seldom or never been obtained in Directors or any other class of publications, and while we may not claim to be an exception to the general rule, yet we have no hesitation in saying that the errors and omissions, if any are found, will be few and unimportant.

Respectfully,

CROTTY & DART.

# AN HISTORICAL RECORD

OF THE

## COUNTY of OXFORD

---

The County of Oxford in physical peculiarities more resembles the midland counties of England than any section of country on this side of the Atlantic. In its primitive state, the towering pines of Blenheim had fellowship in those of Norwich and of Dereham ; while the maple leaf was seen in richest luxurance in the Oxfords, Zorra and Nissouri. The earliest records tell us that in days long gone by, Indian tribes of the Chippewas, Mohawks, and even the Eries, found a peaceful resting-place on the banks of the Thames, the Otter, and the Ouse. No portion of the county can be classed as unfit for cultivation. A subsoil of rich clay underlies the light surface of the southern portion of Blenheim ; and when the last trace of the giant of the forest shall have disappeared, the least productive, while certainly the most profitably tilled lands will be those from which have been taken our finest deal timber. Excepting the sections indicated, the soil is exceedingly productive. The land is rolling enough to supply a free course for the rains of the fall and spring, and the absence of expanse of marsh, or even beaver-meadow, affords a guarantee for the health of the husbandman. No portion of Ontario is so well watered with living springs ; and it was but simple justice on the part of Surveyor-General Chewett when he pronounced the section of which we are speaking as "the most valuable land in the Province." The exhibitions of agricultural products that may be witnessed annually, in every township, tell plainly enough that wheat and barley, peas and oats, and the roots and tubers so essential to profitable farming, all find a genial soil in the well-tilled fields of Oxford ; and the rate per acre of production is proof of this, and of the industry and skill

of our agricultural classes. Gentleman familiar with the famed Genesee Valley of the State of New York do not hesitate to pronounce in favor of Oxford for general productiveness and the enduring quality of its soil. Fruit culture has not been neglected, and the annual shipments, to England and to the American markets, make it plain that the hardier fruits, such as apples, quinces, and pears, are not only a certain, but an abundant and a profitable crop, and an item of very material interest in the economy of the agriculturist.

The settlement of the County of Oxford was not rapid. Indeed, the settlement of Ontario, until a comparatively recent date, was like the seam on the sleeve of a coat—all at the outside. To trace the growth in numbers of its inhabitants, the wealth and the influence of the people, is not our purpose. It is enough to know that with but a moderate share of those trials that invariably attend life in the backwoods, about fifty thousand souls find homes, secure from any disturbing element, and in the enjoyment of all the blessing of civilization, within the borders of the County of Oxford.

Of the character of the early settlers, scant data is afforded. The pioneers of our civilization were of that good old stock who stood by the flag of England in the hour of dangers and difficulties—the father of our present Registrar, James Ingersoll, Esq., having, under promise of the tract of country now forming the three Oxfords, established a colony of U. E. Loyalists in the quarter indicated. Unfortunately for Mr. Ingersoll, at a time when all resources were exhausted, and when the helping hand of executive power was much needed, the then Governor, Simcoe, was recalled, and the settlement was left to struggle on as best it could; while Mr. Ingersoll had the mortification to find, shortly after, that all his hopes were blighted by the refusal of the new administrator to carry out the assurances of his predecessor.

In the Township of Norwich, through the agency of the late  
✓ Mr. S. Lossing and others, at an early date, a settlement was formed of persons belonging to the Society of Friends. The habits of such a class, their peaceful intercourse and frugal ways, contributed not a little to the development of the section in which they lived, and their influence for good extended far and wide. Zorra and a portion of Nissouri gave shelter largely to persons from the Highlands of Scotlands, while a very considerable settlement of Germans—more properly Dutch—found a resting-place in the rear of Blandford, and in what is now  
✓ East Zorra, Zorra having subsequently been divided into "East" and "West." A population so homogeneous was certain to cultivate the aids to domestic peace; and hence it is that the adherents of every church lack nothing of spiritual

consolation in comfortable and, in many cases, really splendid edifices. Of the school system little need be said. Long since the log school-house passed away, and tuition through the influence of the birchen-rod exists neither here nor elsewhere in Canada.

A compulsory School Law, enforcing the attendance, for a portion of the year, of every child of the school age, a law comprehensive in details, carried out through trustees the choice of the people, and watched over by an Inspector of acknowledged parts in his profession, and as a citizen, with ample provision in school edifices and in appliances, leaves nothing to wish for.

In postal accommodation, Oxford stands in advance of older sections; and it may said, to the credit of the post-office authorities, and of our Representatives, that there is hardly a household distant from a post-office over three miles, while all our leading roads are routes for the conveyance of daily mails.

Such has been the enterprise of the people of Oxford that, with but one or two exceptions where physical difficulties supervene, every concession and side-line has been made available for travel; while the western half of the County enjoys the advantages of excellent macadamized roads.

The Great Western Railway passes from east to west through the centre of the County—the division of the County into Ridings following with slight variation this enforced sundering of the older from the newer Townships. The Buffalo and Goderich Railway skirts the eastern portion of the County; while the Canada Southern and the Air Line pass through the southerly section. These great avenues of commerce are crossed by the Port Dover and Lake Huron Railway, a new enterprise, touching Otterville, Norwich, Woodstock, and Tavistock, joining Lake Erie at Dover, with the County of Perth at Stratford; while the Brantford and Port Burwell Railway, entering Norwich in the east, passes west through the heart of that important municipality, and, touching Tilsonburg, connects the Canada Southern with the Great Western at Brantford. Thus, no matter in which direction ingress to or egress from the County is required, a ready means of accomplishing the desire is at hand; while the presence of so many arteries insures to the agriculturist and to the manufacturer the most ample facilities—giving to the land a value almost as great as if situated in the neighborhood of a great commercial emporium. Add to these essentials the Credit Valley Railway, passing from Toronto, in an angular direction, through Drumbo, Woodstock, and Ingersoll, forming a connection at St. Thomas with the Air Line, the Canada Southern, and the Port Stanley road, and it will be conceded that this portion of the Dominion has necessity for no farther extension of its railway facilities.

In 1792, Dereham formed a portion of the Talbot District, and its complete subdivision into Lots and Concessions was not perfected until 1822. The first lands granted in this Township were by order in Council given to John and George Ball, Hon. Robert Hamilton, Robert Addison, and to the Hon. Peter Russell. It was not until 1834 that the Government decided on offering land in this Township for sale; although as far back as 1825 we find the names of sixteen residents, with a total of 66 acres of land, out of 63,722, under cultivation; with 5 horses, 26 oxen, 22 cows, and 19 young cattle. In 1861, the population of Dereham had reached 5,477, being an increase over the census previous (1851) of 1833.

The Township of Dereham may claim to have introduced, into Canada, the making of cheese as an article of merchandise. Following the plan of Herkimer and other American sections, the people of Dereham adopted the factory system, and, under judicious management, with a success that is highly creditable. That mammoth cheese, forming so prominent a feature of England's great exhibition, inaugurated under the auspices of the "great and good" late Prince Consort, was made in Dereham by Mr. Ranny, and its size and quality were no less a wonder to the people of England than to those of the neighboring Republic. Other sections have followed the lead of Ranney and Harris, of Bodwell and Hopkins; and the cheese factory and the school-house stand in equal importance and in equal numbers throughout the length and breadth of the country.

Dereham's production of lumber, once very considerable, is falling away; still Mr. Tillson finds profitable employment for his extensive mills, and now, with railway facilities to all quarters, is in a position to command remunerative figures for his productions.

Mr. Horner's advent to the western part of Canada was under the following circumstances: In consequence of services rendered to Colonel Simcoe, during the American Revolutionary War, by a Mr. Watson, an uncle of Mr. Horner—in remembrance of those services, the Colonel, on his appointment as Governor, invited Mr. Watson to come and settle in the colony, and to bring all his friends and relations with him, and, as an inducement and a reward for those services, he was promised a whole Township. In virtue of this promise, Mr. Watson accordingly sent a son to Canada, who, accompanied by his cousin, Mr. Horner, arrived in Blenheim in 1793, and to facilitate their speedy settlement, the Governor instantly ordered that three Concessions of the Township of Blenheim should be surveyed for them, in which, after the survey was made, a site was chosen for the erection of a mill, which was required by the Governor should be established as one of the conditions

of their absolute right to the lands granted, and as an encouragement to future settlers. After making the selection for the mill site, both the emigrants returned to the States. Horner alone came back to Canada, which he did with a view of settling in this County, bringing with him from Albany, N. Y., the materials and men to erect the mill in question. At this time the locality of his intended settlement and the surrounding territory were unmarked by a single feature of civilization. There was then no road communication from Niagara (then called Newark, and the seat of Government) to York (now Toronto), and the usual mode of travelling and for the transportation of goods was by boat along the lake shore, so that the only approach to the County was by such route. Mr. Horner having conveyed his materials, etc., all the way by water from near Albany, drew in his boat to the beach of Burlington Bay, in the neighborhood of where the city of Hamilton is now situated. His cargo was thence carried to Blenheim on sledges, roughly improvised for the occasion, and drawn by oxen. Mr. Horner's mill was the first saw mill erected in the County, but he seems to have been unfortunate in his mill speculations, for the dam of his first (the saw mill), which was in working order in 1795, broke down before it had been in operation at all, and the grist mill, which he subsequently erected, was destroyed by fire in 1809, and never rebuilt."

The inland position of the County of Oxford and the sparsity of its population, at the time of Canada's struggle with the neighboring Republic, deny us the opportunity of supplying our readers with the tales of patriotism or incidents of individual heroism, common in the Niagara peninsula and in the West. Our agents, who were instructed to gather and note with fidelity every incident that might go, in after years, to make up Canada's domestic history, have sought in vain for material for sketch-work; and romance in a work of this character is out of the question. We have, however, been struck with the fact that eleven persons are each reported as "the first white child in the County." An aged negress in South Norwich astonishes the section with the assertion that she was Washington's nurse; while she insists with feminine obstinacy to the truthfulness of the story of the hatchet and the cherry-tree. A writer such as Mayne Reed would have no difficulty in procuring texts for weeks of fiction in the hunting scenes enjoyed by the first settlers and retailed by their sons. But there is a marvellous sameness in all these, and the man of business who consults this Directory, to be instructed, not for amusement, would care little for the details of bear fights or the prowess of the back settlers against the ravenous wolf. The hardships of "going to mill," the frolics at weddings, and the incidents attending, as

it were, the dawn of civilization, amusing and instructive as all are, are so much akin to similar stories from the pen of Mrs. Moodie, in "Roughing it in the Bush," that we must deny them a place, referring the curious to the very interesting book just mentioned. Oxford never was the settled home of the "son of the forest," and of Indian traditions we have few; and, strange to say, Gourley, in his *Gazetter*, passes these unnoticed.

It was not, as we intimated, in participating in the defence of the country, that the pioneers of Oxford spent the dawn of their existence in the wilds of Canada. It was in the less exciting struggle to subdue the forest, and to open up avenues of communication to the outer world, that years of toil and hope were spent; and many of those sturdy men, sturdy in intellect as well as in loyal resolves and energy, yet live to see their sons in places of prominence in all the walks of life. Indeed, it is a circumstance creditable to the people of East Nissouri and of the Zorras, that a greater number of young men of the Mathesons, the Camerons, the Sutherlands, the Murrays, the McKenzies, the Olivers, the McKays, and the Munros, grace our pulpits, the courts, and the counting-room, than of any other section of the country, numbers taken into account. In common with every section of Canada, Oxford, has increased marvellously in wealth and importance—under the influences of our domestic institutions, that are, happily, free from the blighting influences of the Democracy across the border. Positions of trust are held, not on the frail tenure of party existence; and the intelligence of our people, as years roll onward, finds its highest aspiration in the hope that the land of the maple leaf will forever maintain its distinguished position in the Empire that acknowledges the sovereignty of her who was awarded, by her faithful Parliament, the august title of "Queen of Great Britain and Ireland and Empress of India," and irrespective of party, the prayer of all is, that we may live in the fear of God, in dutiful allegiance to the Cown and Constitution of the Realm, and in brotherly love and Christian charity toward each other.

### THE REPRESENTATION OF THE COUNTY OF OXFORD.

Before entering upon the subject of the representation of the County of Oxford, it may not be out of place to state that, in 1792, Letters Patent were issued by Lieutenant-Governor Simcoe, dividing the Province of Upper Canada into Counties, and apportioning the representation thereof.

The following are the names of the Counties, with the number of representatives they were sending to the House of

Assembly, viz. : Glengary, 2 ; Stormont 1 ; Dundas, 1 ; Grenville, 1 ; Leeds and Frontenac, 1 ; Ontario and Addington, 1 ; Prince Edward, 1 ; Lennox, Hastings and Northumberland, 1 ; and York, 1 ; Lincoln, 1 ; Norfolk, 1 ; Suffolk and Essex, 1 ; Kent, 2—making in the whole, nineteen Counties, and fifteen representatives. At this time there was no County of Oxford, the Township of Oxford having been surveyed only in 1793 ; but the territory in it was, as we have before stated, probably part of the County of Norfolk, which a few years later composed with the Counties of Oxford and Middlesex, the district of London.

There is no official list to be found of the members elected for the different Counties above enumerated during the first and second Parliaments, 1792 and '96. The following names are given as those of members elected in 1792, and, we believe, are correct :

ANGUS B. MACDONELL,  
JOHN McDONNELL,  
ALEXANDER MACDONNELL,  
ROBERT J. D. GRAY,  
SAMUEL SHERWOOD,  
WILLIAM BUELL,  
JACOB WRAGER,  
JOHN FERGUSON,  
EBENEZER WARBURN,

DAVID M. ROGERS,  
ANGUS MACDONNELL,  
D. W. SMITH,  
RICHARD BRASLEY,  
ROBERT NELLIS,  
RALPH CLINCH,  
ISAAC SWEEZEY,  
THOMAS MCKEE,  
MATTHEW ELLIOTT.

JOHN THOMPSON.

The Hon. D. W. Smith, having been elected to represent the Counties of Norfolk, Oxford, and Middlesex, in 1800, may be supposed to have represented the County of Norfolk in the first two Parliaments.

In 1798 an act was passed for the better division of this Province (38 Geo. III., chap. 5), from which we extract the following :

"The Townships of Burford, Norwich, Dercham, Oxford on the Thames, Blanford and Blenheim do constitute and form the County of Oxford."

Another act of the same Legislature passed on the 4th July, 1800, "for the more equal representation of the Commons of this Province in Parliament," states that :

"The Counties of Oxford, Middlesex, and Norfolk shall, together, be represented by *one* number."

Under this act, those three Counties were represented from 1800 to 1804—*i. e.*, in the third Parliament, by the Hon. D. W. Smith, and in the fourth Parliament, 1804 to 1808, by Benajah Malory.

During the fifth, sixth and seventh Parliaments—*i. e.*, from 1808 to 1820—the Counties of Oxford and Middlesex are found to be represented by one member : the members elected being, in 1808, Benajah Malory ; in 1812, Mahlon Burwell ; in 1816, Mahlon Burwell. From 1820 to the union—*i. e.*, during the eighth, ninth, tenth, eleventh, twelfth and thirteenth Parliaments—there was one representative for Oxford alone, the members

elected being: in 1820, Thomas Horner; in 1824, Thomas Horner and Charles Ingersoll; in 1828, Horner and Malcolm; in 1830, Charles Ingersoll and Charles Duncombe; in 1835, Charles Duncombe and Robert Alway. Duncombe having left the country, his seat was declared vacant, and the constituency passed to Roger Rollo Hunter and Robert Alway.

After the union in 1840, Oxford was represented by F. Hincks, now Sir Francis Hinks.

In 1844, Mr. Robert Riddell was elected; and 1848, Peter Carroll and Hon. F. Hincks.

In 1851, Hon. F. Hincks was elected; after which the County was divided into North and South Ridings.

In 1854, the North Riding was represented by D. Matheson, Esq., of Embro, and the South Riding by Hon. F. Hincks. During the existence of the then Parliament, a vacancy occurred in the representation of the South Riding, when Dr. E. Cook, of Norwich, was elected.

In 1858, Hon. Geo. Brown, of Toronto, was elected for the North Riding, but electing to sit for the City of Toronto, in which he had been chosen, the constituency fell to William McDougall, Esq., while the South Riding was represented by Skeffington Connor, LL.D.

In 1861, the North Riding was represented by William McDougall, Esq., and the South Riding by Dr. Connor; and on the demise of that gentleman, by Hon. Geo. Brown.

In 1863, the North Riding was represented by Hope F. McKenzie, Esq., of Sarnia, and the South Riding by the Hon. George Brown.

In 1867, the North Riding elected Thomas Oliver, Esq., of Woodstock. In the same year the Hon. George Brown was elected for South Oxford.

In 1872, Thomas Oliver, Esq., was returned for North Oxford by acclamation, and E. V. Bodwell, Esq., was elected for S. Oxford.

In 1874, Thomas Oliver, Esq., was elected for North Oxford, and Colonel James A. Skinner for South Oxford.

In 1878, Colonel Skinner was elected for South Oxford, and Thomas Oliver, Esq., for North Oxford.

In the fall of 1880, the North Riding suffered a severe loss in the death of its representative Mr. Oliver. Mr. James Sutherland, of Woodstock, was shortly afterwards elected in his stead.

In 1858, under the Act abrogating the nominative principle in regard to members of the Legislative Council, George Alexander, Esq., was chosen as the representative in the higher branch of the Legislature for the Gore and Thames Division, a position he occupied with great usefulness until 1864, when, under the Act of Confederation, the nominative principle was restored. For a brief period, Mr. Alexander had no seat in Parliament;

but in 1873 was called to the Senate of the Dominion, a tribute to his merits as a statesman and a patriot.

---

### THE LEGISLATURE OF ONTARIO.

Under confederation which was consummated by the Imperial Act of 1867, separate legislatures were given to each of the Provinces of the Dominion. Under this Act, the election for representatives for the Ridings of Oxford took place for the first time in 1867. North Oxford returned George Perry, Esq., by an unanimous vote, while on a contest Adam Oliver was returned for South Oxford. In 1871, Mr. Perry was again elected by acclamation, and Mr. Oliver, after a contest, by a tremendous majority.

In 1872, a vacancy was created in the representation of the North Riding by the appointment of Mr. Perry to the position of Sheriff, when he was succeeded by the Hon. Oliver Mowat, without a contest. In 1875, North Oxford again returned, without opposition, the Hon. Mr. Mowat. Mr. Oliver was elected in 1878 for South Oxford, but was unseated and retired, making way for Hon. Adam Crooks, thus giving to the Oxfords the services of the Premier and the chief of his executive. In 1879, the Hon. Oliver Mowatt was again chosen to represent N. Oxford, and the Hon. Adam Crooks South Oxford.

### THE ADMINISTRATION OF JUSTICE.

It was not until 1840 that the County of Oxford enjoyed within itself the advantages of a convenient receptacle for criminals, or the speedy administration of justice was secured through the medium of a resident judge, with the appurtenances belonging to a County town. The late John Arnold, Esq., was, by appointment of the Crown, the first Judge. Under the Act 8th Vic. Chap. 13, it was necessary that the County Judge should be a barrister of five years' standing. Mr. Arnold by this Act became incapacitated, and the office was bestowed, in 1845, on David Shank Macqueen, Esq., who has continued the discharge of the duties of that office in a most efficient manner up to the present time. The office of Registrar for Oxford was first filled by Thomas Horner, Esq., a gentleman who had taken no inconsiderable part in the settlement of Oxford, and who had represented its people in more than one Parliament. Mr. Horner was succeeded by James Ingersoll, Esq., in 1834. The duties of the office from 1800 to 1850 were not onerous. Long intervals appear between entries, and, as a consequence, the emoluments of the office were insignificant in the extreme. Indeed, when the office fell to the present incumbent, James Ingersoll, Esq.,

and the Registry Office was convenient to his own place of business in Ingersoll, the revenue from it and from the Post Office—for Mr. Ingersoll was in early days a very centre of administrative forces—was barely sufficient to compensate him for the assistance he provided and for the stationery he consumed.

The office was removed from Ingersoll to Woodstock, in 1848, and Mr. Ingersoll (to the satisfaction of every person) has enjoyed health and vigor, aided by an efficient staff, for the very creditable discharge of the responsible duties of that office up to the present.

The office of Sheriff of Oxford was first bestowed on James Carroll, Esq., who resigned in 1862, when Andrew Ross, Esq., was appointed. Mr. Ross's death, in 1873, made way for Geo. Perry, Esq. The office of Clerk of the Peace was first and for many years filled by Wm. Lapenotiere, Esq., who, resigning in 1863, was succeeded by F. R. Ball, Esq., Q.C., who is also Crown County Attorney and senior member of the law firm of Ball & Ball.

Mr. Foquett was Clerk of the County Court from 1840 to 1853; he was succeeded by James Kintrea, Esq., who held the office until 1869, when James Canfield, Esq., was appointed. Mr. Canfield is also Clerk of the Surrogate Court.

The office of County Treasurer was first given to Hugh C. Barwick, Esq., who discharged the duties until 1854, when James Kintrea took charge of the accounts and the finances of the County. In 1869, on Mr. Kintrea's removal from the County, the office was bestowed on the present occupant, H. P. Brown, Esq., who had been a successful manufacturer, and also a prominent municipal officer.

Prior to 1848, magistrates in Quarter Sessions conducted the business of expending moneys for public improvements. On the introduction of the municipal institutions—*i. e.*, Township and County Councils or Corporations—under the auspices of the Baldwin-Lafontaine administration, all matters pertaining to public works and local government passed into the hands of the people, whose representatives compose the Councils of those Corporations; and so well satisfied are the people with the system, that no attempt has been made to abridge the power or circumscribe the scope of popular action. Thus it is that means are found for the better development of the country, the construction of public works, and the extension of our comprehensive system of education. On the introduction of municipal institutions, the Hon. P. B. de Blaquiere was appointed by the Crown as Warden of the district. An able and a popular man was Mr. de Blaquiere, and traces of his administrative parts and of the wisdom and patriotism of the gentlemen composing the Council of the people in that early day, are still extant.

DRUMBO.

This flourishing village is situated on Lot 13, Con. 7, in the Township of Blenheim, at the Junction of the Grand Trunk and Credit Valley Railways. It has been twice burnt down, viz., 1862-64, but in spite of these drawbacks and owing undoubtedly to its railway facilities it is now one of the most prosperous villages in the County, among its principal features may be mentioned a large steam power cabinet factory, a tannery, a foundry, a number of handsome stores, several blacksmith shops and four hotels. There are five churches, all creditable to their congregations, Presbyterian, Wesleyan Methodist, Primitive Methodist, Baptist and Church of England, a large school, and a splendid Agricultural Hall. The Township Council meet here in a large brick hall, the property of the Township. The Division Court also is held here; mails daily; population about 750.

## INGERSOLL

Is pleasantly situated on the river Thames, in the County of Oxford, and is partly built in the Township of West Oxford and partly in the Township of North Oxford. From 1852 until 1865 Ingersoll was only an incorporated village, when it took the status of a town, with Adam Oliver, Esq., as first Mayor. It is situated in the midst of a fine, wealthy, agricultural country, and is the acknowledged centre of the dairy trade of Canada and the second dairy market in importance on the continent. Owing to the energy, pluck and enterprise that always characterised the business men, Ingersoll is now considered one of the most important and one of the most prosperous towns in Western Canada. At present among its industries are some that are considered the most important in Canada, among which may be mentioned the following:—The Agricultural Implement Manufactory of Noxon Bros.; a similar institution owned by Thos. Brown & Co., who also operate a large Tannery; J. L. Grant's Pork Packing House, the third largest of its kind in Canada; the Woolen Factory of Waterhouse & Bradbury; the Carriage, Waggon, Sleigh and Cutter Factory of Mr. Geo. Bailey; the Planing Mills of Adam Oliver & Co., and Angus Matheson, both firms doing a large manufacturing and contracting busi-

ness; the Flour, Oat and Pea Mills of John A. McInnes & Co., W. S. King, James Smith, John Stuart and W. J. Partlow, all of whom do a large export trade, also a large Lager Beer Brewery. Like most Canadian towns Ingersoll has some very fine public buildings. The Churches, Public Schools, etc., are perhaps unsurpassed in the country. The press of Canada is well represented by the *Oxford Tribune*, and the *Ingersoll Chronicle*, the former owned and edited by Mr. H. Rowland, besides current politics and literature, is the organ of the Conservative party in the County and the special advocate of the dairy interests in Canada, while the latter, a Reform Journal, started in 1855, by the late J. S. Gurnett, is now ably conducted by his son, Mr. Geo. F. Gurnett. The two devastating fires that visited Ingersoll some years ago were the means at least of improving the general appearance of the town. At present the principal thoroughfares present an appearance rarely to be seen outside of our large cities, while the many handsome private residences denote the wealth and culture belonging to Ingersoll. Ingersoll is an important station on the Great Western and Credit Valley Railways. Its streets are lighted with gas, and its fire protection appliances are all that is necessary. It is distant from Toronto, 100 miles; from Suspension Bridge, 100 miles; from Hamilton, 60 miles; from London, 19 miles. The Imperial, Merchants and the Molsons Bank, the Montreal and Dominion Telegraph Companies and the American Express Company have agencies here. There are two mails each way daily. Population about 5,000.

**NORWICH,**

An incorporated village of 1,600 inhabitants. Is situated on Lots 7 and 8, in the 4th and 5th Concessions, of the Township of North Norwich. It is distant from Woodstock, 17 miles; from Ingersoll, 18 miles; and from the City of Brantford, 25 miles. Norwich no doubt is one of the most prosperous places in the County. Its inhabitants are already looking forward to the day when it will take rank with the towns of the County. It has splendid railway facilities. The Brantford and Port Burwell Railway and the Port Dover and Lake Huron Railway cross each other here, whilst the latter road and the Canada Southern Railway form a Junction only 8 miles distant. It is the centre of the great fruit growing section of the County, and the cheese interests of our County is well represented in the neighborhood. Norwich has large manufacturing interests, having excellent water power. Its principle thoroughfare will bear comparison with some of the larger places in the County. It is fortunate in the possession of an excellent newspaper, the *Norwich Gazette*. Its typographical appearance, the selections and the general tone of the paper are all indicative of culture. It also possesses its full compliment of Charitable and Benevolent Institutions and Schools, four Churches, three Hotels, a Public Hall in the Brady Block, an agency of the Bank of Commerce, Montreal Telegraph Company and the American and Ontario Express Company, an office of the Division Court is there also.

## TILSONBURG.

This rising Town is situated in the extreme south eastern corner of the County, in the Township of Derham, on Big Otter Creek. It is on the line of the Canada Southern and Great Western Air Line Railways, and is the present terminus of the

Brantford, Norfolk and Port Burwell Railways. Tilsonburg was incorporated as a Town in the year 1872, Mr. Edwin D. Tillson being elected first Mayor. It is distant from Woodstock, 25 miles; from Ingersoll, 15 miles; from St. Thomas, 25 miles; and from Pt. Burwell, 17 miles. It possesses excellent water power for manufacturing purposes, which is taken advantage of to a very large extent. Mr. E. D. Tillson takes the foremost place in this line, his mills being very numerous and extensive. The chief industry of the Town is the manufacture of lumber, of which four million feet is annually cut. There are also two large Blind, Sash and Door Factories, and one smaller one, four Flouring and Gristing Mills, and a Pea Splitting Mill, all of which do a large export trade; three Foundries, a Woolen Factory, a large Sugar Manufactory, a Factory for the Evaporation of Fruits and several other industries of lesser importance. Broadway, the principal thoroughfare, is a fine wide street, on each side of which are buildings that will rival in appearance any in the County. The Churches, of which there are a large number, and the Public Schools are large buildings of modern architecture, and are justly the pride of the townspeople. Two excellent newspapers, the *Observer* and the *Liberal*, watch over the varied interests of the Town. The Federal Bank, the Montreal and Dominion Telegraph Companies and the American Express Company have agencies here. There is also a private Banking Institution, conducted by Harrison & McTaggart. Population about 3,200. Mails dairy.

## WOODSTOCK

Is pleasantly situated in the south-west corner of the Township of Blandford, bordering on the river Thames and Cedar Creek and is an important station on the Great Western and Credit Valley Railways, and on the Port Dover and Lake Huron Section of the Grand Trunk Railway. It is distant from Hamilton, 48 miles ; from London, 29 miles ; and from Ingersoll, 10 miles. Woodstock being the County Town and the Judicial seat of the County of Oxford therefore has a decided advantage over other towns in the County. It has always been considered slow in its growth, but at the same time its progress has been substantial and sure, and to-day it is undoubtedly the largest and most important town in the County. Population about 5,300. Woodstock is situated in the midst of a splendid agricultural and dairy country, and owing to its pleasant, clean and healthy appearance strangers of means are attracted here to spend the summer months. Its manufactories are numerous and large, comprising among them some of the most important industries of the Dominion. The Public Buildings, Churches, Schools Hotels, etc., of Woodstock are unsurpassed in the country. Very many people are attracted to the town owing to its superior educational facilities, among which may be noted the Canadian Literary Institute. Few towns in Canada can surpass Woodstock in the magnificence and value of its retail stores, and none stand higher among wholesale men than the merchants and business men of this place. It also possesses numerous Banks, Loan Societies, etc., and all the other Institutions that are invariably found in a large and prosperous town. No town in Canada can boast of Journals of higher merit than those that belong to Woodstock. The first of these the *Sentinel-Review* is published by Messrs. Pattullo & Co., who claim the largest circulation in Canada outside of city papers. The *Times*, conducted by Mr. Francis, is also in a healthy condition. There is no doubt that the flourishing condition of Woodstock to-day

is owing to those gentlemen that early interested themselves in securing for the town superior railway facilities, and it will surprise no one, if in a very few years Woodstock takes the rank of and status of a city.
