# INSTRUCTIONS FOR USING PHONES

PLEASE DESTROY OLD DIRECTORY  
REPORT ALL LINE TROUBLE TO NO. 300

Speak in an ordinary tone of voice and directly into the mouthpiece of the transmitter, with the lips close to it.

Call by number—integers separately—as 106, one-oh-six, and have the number you want ready before taking the receiver off the hook.

Hang up the receiver when through talking. Do not hang up the receiver with the large end up.

When calling a subscriber, remain with the receiver at your ear until the party answers or until the operator reports. This avoids delay, and promotes quick service. If the line is in use the operator will say, "Line is busy." Don't blame the Central Operator because the party called for is slow in answering.

Don't ask, "Who called me a few moments ago?" The operators have no means of knowing, and you are only occupying their time when some one else is waiting.

Don't ask the operator to call up when such and such a one is through talking. Their memory is limited. Wait awhile and call again.

Don't allow children to use the telephone unless an adult first gives the call and gets the subscriber.

Answer promptly when called. This is essential to good service.

Avoid loud or harsh talk, and under no circumstances will profane or abusive language be permitted. All ordinary conversation should cease for business messages, or when the central operator wants the line.

Never under any circumstances take down the receiver and listen to the conversation of others. If, when you take down the receiver you find the line is in use, hang it up and wait till they are through.

Parties who have their telephone moved after having it placed once will be charged for labor and material to make the change.

Patrons should collect toll fees from others who may use their 'phones for service with connecting lines, as the subscribers will be charged for the message.

Report trouble promptly, otherwise it may not be known and attended to.

In case of fire, notify the Central Office of the location of it, and they will do the rest.

Report to the Manager any incivility or inattention of the employees.

Operators are forbidden to visit over the lines. Their exclusive business is to answer calls.

Please do not engage them in conversation, as it impedes the service.

Please settle all bills when due, as it requires a large amount of labor and expense to send out notices and collect accounts.

Rental commences when the 'phone is installed, and is payable six months in advance, and must be paid promptly at the office of the Company.

In order to effect an economical distribution of subscribers on party lines, it sometimes becomes necessary to change numbers; therefore the Company reserves the right to change a party line subscriber's number at any time such necessity arises.

**TOLL MESSAGES**

Subscribers are held responsible for all toll messages sent from THEIR homes, and they will be charged with the same.

Ordinary conversations should be limited to three minutes. Kindly remember that long conversations often interfere with important business.

**HELPS TO GOOD SERVICE**

When calling parties on your line, do not give the number as 231A, but say, Ring A on this line, then hang up the receiver for 4 or 5 seconds, while the operator rings, take receiver down again, and wait for your party to answer.

When, upon finishing a conversation, you wish immediately to call another number move the receiver hook SLOWLY up and down a few times in order to recall the operator. If the hook is moved RAPIDLY it produces no effect on the signal lamp at the Central Office.

The above instructions apply to any occasion when you wish to secure the attention of the operator by moving the receiver hook.
