Using the Ontario Land Records Index ca. 1780 - 1920 205 Research Guide

Most Recent Update:
October 2020

The Ontario Land Records Index provides access to Crown land records and some land-related material found in the Canada Company and Peter Robinson fonds. The index lists settlers who:

- requested Crown land on which to homestead
- were granted permission to lease or reside on a specific Crown land lot while completing their settlement duties
- received the patent awarding private ownership of a specific Crown land lot
- leased or purchased land from the Canada Company or were Peter Robinson settlers.

The following index has been adapted to include only Oxford County settlers. Land Records microfilm can be requested from the Archives of Ontario to be viewed at the library. If you need assistance with this process contact: localhistory@ocl.net

Search for the name of your ancestor in the PDF below using: CTRL+F

- Search every possible variation of a surname spelling (e.g., “Smith”, “Smyth”, “Smythe”), taking into account potential phonetic pronunciations, clerical and typographical errors.
- Copy the ENTIRE citation — one entry may lead to several different groups of records.

If you find an entry for a particular settler in the Index, that does not mean that the settler gained title to the property.

The Sample Entries noted below show samples of the information that you will find. Tables 1 to 4 explain the codes that you will find in the Ontario Land Records Index.
