Dear Sir:-

We have your remittance of \$27 for interest on your policy loans, receipt for which is herewith enclosed.

Regarding the rate of interest, this is fixed by resolution of the Board, and therefore I am unable to make any change. Generally speaking our policy holders seem to be content with paying 6%; at all events we hear no complaints. A loan on a policy is practically a call loan, in that it may be paid off at the pleasure of the borrower. Moreover there is no expense attending the transaction, which should be taken into account. I am aware that some Companies charge 5½%, and possibly others only 5%, but in this, as in many other matters, competition with other Companies is the governing idea. I do not think our Company suffers in point of popularity on account of the rate of interest charged on policy loans, which I believe to be fair and reasonable, all things considered.

Yours truly,
